

HSPD-12 NEWSFLASH

SUBJECT: GSA INTERFACE AND AGENCY CERTIFICATION PORTAL STATUS

The GSA interface is still turned off and is not expected to be turned back on until next week. Testing of the interface is still on going at this time. Additionally, please be aware that the Agency Certification Portal has been taken offline while this final phase of testing occurs.

The impact of this is that no records can be certified in the Agency Certification Portal and no new records/updated records will be sent to GSA until the interface is turned back on. However, Payroll Personnel agencies can still continue to complete sponsorship and adjudication for those records already in USAccess.

An update on the status of both the Agency Certification Portal and GSA interface will be provided on Monday, March 17th.

Please contact the USDA HSPD-12 Help Desk if you have any questions.
